PROFILE

Full-Stack & Web3 Developer. Co-founder of Qlaa (qlaa.in), a live marketplace platform. Currently interning at SpeedoExpress building production web applications. Experienced in blockchain smart contracts, AI integration, payment systems, real-time features, and scalable architectures. Passionate about shipping products that solve real problems.

EXPERIENCE

SpeedoExpress | Web Developer Intern | 2026 - Present

- Building the production marketing website using Next.js 16, React 19, and Tailwind CSS v4
- Implemented pricing calculator, service showcase, SEO optimization, and WhatsApp CTA
- Deployed to production at speedoexpress.org

Freelance Game Developer | Roblox Platform

- Built game mechanics and scripted gameplay systems in Lua for client commissions
- Delivered custom game development projects on the Roblox platform

Qlaa | Co-Founder & Lead Developer | 2024 - Present qlaa.in

- Built full-stack marketplace with React + TypeScript + Vite + Firebase
- Implemented Razorpay payments, real-time chat, Google OAuth authentication
- Reviews & ratings, artist onboarding, role-based access, CI/CD on Netlify

Impact Career Solution | Co-Founder

- Top 43 Finalist out of 500+ entries at MIT Pune Startup Event
- AI-powered career guidance; validated market for 100K+ Tier-2 students

PROJECTS

Attestr | Decentralized Media Authenticator

React + Solidity + Hardhat + Ethers.js + Firebase + Three.js

- Blockchain-powered media verification with smart contracts, AI deepfake detection, ELA forensics, and perceptual hashing
- Built Chrome extension (Manifest V3) and REST API. Innovate Bharat Hackathon 2026

CodePilot | AI Coding Agent CLI

TypeScript + Node.js + AI SDK + Ink + Zod

- Multi-provider AI coding assistant (Anthropic, OpenAI, Google, Ollama) published on NPM
- Parallel sub-agent system, plan mode, file tracking, model switching, image/PDF input

FitTrack | AI Nutrition Assistant

React Native + Expo + Gemini AI + SQLite + Zustand

- Cross-platform mobile app (v1.0) with AI food recognition, barcode scanning, offline-first architecture

AttendEase | Enterprise Attendance System

React + PostgreSQL + JWT + Vercel Serverless

- Full-stack attendance platform with JWT auth, normalized schema, analytics dashboard

OmniAi | AI Content Generator SaaS

React + Firebase + Stripe + Vite

- AI-powered content generation platform with Stripe payments and multiple templates

ACHIEVEMENTS & LEADERSHIP

- Innovate Bharat Hackathon 2026** — Built Attestr (Team Ctrl+Alt+Diablo)
